Cattery Name

DevineDevons

Do you show your cats? At what shows (for example, CFA, TICA, FIFe)?

We've shown Devons for over a Decade in CFA only but toying with the possibility to add TICA soon. We have produced many Champions, Grand Champions, Regional Winners, Breed Winners, a One-Show Grand, and a DM.

Breeding cats are screened for the following:

- HCM annually
- PKD
- FeLV
- FIV

What age do you release a kitten to a new owner?

4 months.

What is your Spay/neuter policy? Planet Devon recommends desexing before releasing a kitten to its new owner. Please provide your reasoning if that is not your policy.

All kittens are spayed or neutered at around 16 weeks of age, health permitting. They can go to their new homes a week after their surgery as long as they have recovered well.

Microchipping offered?

yes

Declawing policy (describe)

NO declaw and we are happy to explain why.

What is your immunization schedule for kittens?

Adults over a year are all receive FVRCP vaccination, given by the vet when they are altered. Kittens receive 3 vaccinations (FVRCP) before leaving, with the last one around 14 - 16 weeks.

Do you offer a contract or health guarantee to a buyer?

yes

Please describe your shipping policy and practice.

We will ship if escorted in the cabin of the plane. We are happy to meet at the airport or at our home for pick up. NO Cargo !!!

Do you offer assistance with return, rescue or re-homing of your own cats?

yes

Do you have a written application for a potential buyer?

yes

Please tell us a little more about your cats or your breeding practices. For example, are you interested in offering breeding/showing mentorship? What colors do you work with? This information will be placed on your breeder profile page.

Devons come in a variety of colors and patterns and we love them all. Our main concern is health and temperament.

We have mentored but prefer to work/mentor with breeders who have already bred and shown another breed. I learn from them as well.

We recommend any new breeder/exhibitor to have a mentor. CFA has a mentor program and a lot of information on their site to help newbies. It's a good place to start if you think you might want to join the cat fancy. Do a lot of homework - Go to shows - meet the breeders - and ask a lot of questions.

With that being said:

Breeding Devons is not easy as any committed breeder will tell you. It is recommended that before jumping into a commitment like this that you show a Devon in Premiership (altered class). If you are not going to commit to improving the breed with each generation, then purchasing a pet is a better plan for you. This is a very expensive hobby and most will not make it past the first 2 years for a number of reasons.

Keep in mind that if you plan on bringing a new kitten into this world, they are your responsibility and one that should not be taken lightly.
