Cattery Name

Everafter

Do you show your cats? At what shows (for example, CFA, TICA, FIFe)?

I have several Grands in ACFA and also show in CFA. I go to as many shows as I can but often can't go out of town if I have baby kittens to care for.

Please describe your experience with breeding cats.

Since 1999

Breeding cats are screened for the following:

- HCM annually

Are test results provided to buyers?

No

What age do you release a kitten to a new owner?

14 weeks

What is your Spay/neuter policy? Planet Devon recommends desexing before releasing a kitten to its new owner. Please provide your reasoning if that is not your policy.

All Cats and kittens are spayed or neutered prior to leaving

Microchipping offered?

Yes

Declawing policy (describe)

I do not allow declawing and have a strict contract

What is your immunization schedule for kittens?

2 to 4 weeks FVRC Ultranasal. 8 weeks CPRC. 12 weeks CPRC. I prefer a rabies is given by the new owner's vet so there is a record of it in their permanent file

What is your refund policy?

Refund offered depending on the situation and current age of cat or kitten being returned

Do you offer a contract or health guarantee to a buyer?

Yes, contract and health guarantee

Please describe your shipping policy and practice.

Shipping available weather permitting. I has to be 65 to 80 degrees.

Do you offer assistance with return, rescue or re-homing of your own cats?

Yes

Do you have a written application for a potential buyer?

yes

Please tell us a little more about your cats or your breeding practices. For example, are you interested in offering breeding/showing mentorship? What colors do you work with? This information will be placed on your breeder profile page.

My Devons are raised under foot and under the covers and are never caged. Kittens are properly socialized and loved. My queens only have 1 to 4 litters and retire by age 3 or 4. My studs retire at age 3 so that all breeding cats may have the opportunity to live a wonderful life as a beloved pet getting all of the attention. I mostly get pointed and mink colors since they are my favorite colors. I also commonly get cinnamon, all solid colors, tortoiseshells, calicos, some tabby and some bi colors. I also occasionally have straight coated Devon hybrid kittens available for love and/or showing in Household Pet classes that have full, wonderful Devon personalities but a fraction fo the cost. My cats are screened for HCM, luxating patellas and hip dysplasia.
