Cattery Name

Feliformia

Do you show your cats? At what shows (for example, CFA, TICA, FIFe)?

I show my cats at WCF and TICA shows. Since I've been working with an outcross program I haven't shown for many years until now when I have my first litters with wavy coated (F3) kittens. The female I'm keeping has been very succesfull. Last show (WCF) she entered she became BIS (equal to Best of the Best total in FIFé) both on Saturday and Sunday.

Breeding cats are screened for the following:

- HCM bi-annually
- PKD
- CMS
- FeLV
- FIV

What age do you release a kitten to a new owner?

16 weeks of age.

What is your Spay/neuter policy? Planet Devon recommends desexing before releasing a kitten to its new owner. Please provide your reasoning if that is not your policy.

Pets are spayed/neutered before they leave.

Microchipping offered?

yes

Declawing policy (describe)

Absolutely not.

What is your immunization schedule for kittens?

Panleukopenia, calici, herpes and chlamydia at appr. 11 and 15 weeks of age. Rabies and 12 weeks of age if requsted.

Do you offer a contract or health guarantee to a buyer?

no

Please describe your shipping policy and practice.

I ship worldwide. Will not send single kittens/cats as cargo.

Do you offer assistance with return, rescue or re-homing of your own cats?

yes

Do you have a written application for a potential buyer?

yes

Please tell us a little more about your cats or your breeding practices. For example, are you interested in offering breeding/showing mentorship? What colors do you work with? This information will be placed on your breeder profile page.

I don't breed by colour. My main focus are genetic variation, health, sound temperment and high quality coats. I prefer to co-operate with breeders who share those values and I'm glad to mentor new breeders.
