Do you show your cats? At what shows (for example, CFA, TICA, FIFe)?

Attacurl, is a TICA, CFA and ACFA registered cattery.

We take our responsibilities very seriously and strive to ensure the health, safety and well-being of all our cats.

All of our breeding cats are tested for blood type, genetic diversity and 40+ genetic diseases. They also undergo extensive and continual testing with our veterinarian for Feline Hypertrophic Cardiomyopathy (HCM), Patellar Luxation and Hip Dysplasia.

Here at Attacurl, our litters are carefully planned and thought out to produce the desired traits and characteristics that are called for in the Devon Rex breed standard.

Please describe your experience with breeding cats.

I have a background in fostering and working in a veterinarian hospital. I spent years learning all I could about Devon Rex before becoming a breeder. My journey originally began with searching for a Devon Rex as a pet. The effort it took to find a reputable breeder was arduous to say the least. After a long wait and falling in love with the breed I knew I wanted to help preserve the breed and help others obtain a healthy and on standard Devon Rex of their own.

Breeding cats are screened for the following:

- HCM annually
- PKD
- CMS
- FeLV
- FIV
