Cattery Name

Destynys

Do you show your cats? At what shows (for example, CFA, TICA, FIFe)?

Yes, TICA

Please describe your experience with breeding cats.

I've bred and shown sphynx since 2003. I have 8 International Winners Sphynx. I purchased my first Devon Rex in 2020 and really love the breed.

Breeding cats are screened for the following:

- HCM annually
- PKD
- CMS
- FeLV
- FIV

Are test results provided to buyers?

Yes

What age do you release a kitten to a new owner?

Devons- 14 weeks

What is your Spay/neuter policy? Planet Devon recommends desexing before releasing a kitten to its new owner. Please provide your reasoning if that is not your policy.

All pets are spayed and neutered at 12.5 -13 weeks before going to pet home

Microchipping offered?

Yes

Declawing policy (describe)

Absolutely NOT!!! it’s cruel and I promote paw project who actively works to ban declawing

What is your refund policy?

I do not take deposits on unborn kittens. I usually wait until kittens are 5-6 weeks before taking deposit. If kitten is returned, I would give refund minus fees (return to vet). Retired breeders get full refund if returned for any reason.

Do you offer a contract or health guarantee to a buyer?

Yes, contract and health guarantee

Please describe your shipping policy and practice.

I do not ship kittens. New owners must collect their kitten in person. If coming from far away, I will meet at Philadelphia airport.

Do you offer assistance with return, rescue or re-homing of your own cats?

Yes

Please tell us a little more about your cats or your breeding practices. For example, are you interested in offering breeding/showing mentorship? What colors do you work with? This information will be placed on your breeder profile page.

To maintain the personality, we will ensure that each cat is socialized with people and other animals and breed only those animals that have excellent temperaments.

We do our best to ensure that cats are bred without genetic ailments or issues, including DNA testing and HCM scanning. We believe that healthy, socially well-adjusted cats are even more important than breeding a "show cat". We strive to breed the best possible show cats, however, healthy, well-socialized cats will ALWAYS be our first concern.

We ensure each cat that leaves our home goes to an excellent "cat educated" home. Prior to, during and after you adopt a cat from us, you may ask us any questions and as much advice as you wish. We want to provide you with all the information and help to make you and your cat happy and healthy.
