Cattery Name

Devon Rex 4 u

Do you show your cats? At what shows (for example, CFA, TICA, FIFe)?

We show our cats with CFA and TICA.

Please describe your experience with breeding cats.

We have been breeding Devon Rex cats since the early 2000s. We have had several grand champions and one winner of the Northeast conference through TICA. Our breeders are our beloved pets. We do not cage any of our cats ever.

Breeding cats are screened for the following:

- HCM annually
- PKD
- CMS
- FeLV
- FIV

Are test results provided to buyers?

Yes

What age do you release a kitten to a new owner?

After their 12 week visit to the veterinarian.

What is your Spay/neuter policy? Planet Devon recommends desexing before releasing a kitten to its new owner. Please provide your reasoning if that is not your policy.

We believe strongly that our kittens should remain whole until they are at least 6 months of age for proper development.

Microchipping offered?

Yes

Declawing policy (describe)

Declawing will void all guarantees.

What is your refund policy?

We offer a full refund within the first week of possession of your Devon kitten, no questions asked.

Do you offer a contract or health guarantee to a buyer?

Yes, health guarantee

Please describe your shipping policy and practice.

We do not ship unaccompanied.

Do you offer assistance with return, rescue or re-homing of your own cats?

Yes

Please tell us a little more about your cats or your breeding practices. For example, are you interested in offering breeding/showing mentorship? What colors do you work with? This information will be placed on your breeder profile page.

We work with several other breeders around the country. We currently breed all pointed kittens. Our male is a seal point and our two girls are tortie points. They make beautiful babies together. We get seal points, flame points, and tortie points. Other points may be possible as well. We hope to start breeding white with blue eye kittens in the near future.
