Breeding cats are screened for the following:

What age do you release a kitten to a new owner?

We release them to the new owner after they are 4 months old with rabies vaccinations.

What is your Spay/neuter policy? Planet Devon recommends desexing before releasing a kitten to its new owner. Please provide your reasoning if that is not your policy.

There is no problem with Spaying/neutering if the buyer wishes so.

We would never declaw any animal and we are strongly against it.

We vaccinate our cats with every vaccine that is recommended and needed for the cats.

Planet Devon strongly recommends that buyers make arrangements for a personal transport of kittens and cats.

Please tell us a little more about your cats or your breeding practices. For example, are you interested in offering breeding/showing mentorship? What colors do you work with? This information will be placed on your breeder profile page.

Devon Rex Breeder since 2006. The kittens live with us, are used to humans and are beautiful. The kittens have a pedigree and are pure Devon Rex breed. I can send pictures of both parents as well.
