

**First Name**

Lyssa

**Last Name**

Paull

**Address**

near Seattle

**Phone**

123 456 7890

**Email**

[manxtek@gmail.com](mailto:manxtek@gmail.com)

**Website or Facebook Page**

<http://manxtech.tripod.com/Faerietail.html>

**Cattery Name**

FaceHuggers

**Do you show your cats? At what shows (for example, CFA, TICA, FIFe)?**

I show TICA and CFA, I have been doing so since 1991.

**Please describe your experience with breeding cats.**

I started in 1991 with Manx. I had minor mentoring from Cleomar cattery. I got my first Devons from Wendy Renner and Cheryl Dunsmore in 2005. Cheryl had put together an awesome Powerpoint breed presentation that was very helpful.

**Breeding cats are screened for the following:**

- HCM annually
- FeLV
- FIV

**What age do you release a kitten to a new owner?**

Usually about 15 weeks, sometimes locally earlier with at least 2 core vaccines having been done.

**What is your Spay/neuter policy? Planet Devon recommends desexing before releasing a kitten to its new owner. Please provide your reasoning if that is not your policy.**

Neutering is required for pet quality kittens and cats on my contract. Sometimes it may be done already, sometimes not. I prefer kittens to be at least 4 lbs before anesthesia.

**Microchipping offered?**

yes

**Declawing policy (describe)**

No declaw, no FIP vaccine, no Convenia (or any 2 week antibiotic.)

**What is your immunization schedule for kittens?**

Every 3-4 weeks, beginning between 6-8 weeks of age. It depends on circumstances for each litter.

**Do you offer a contract or health guarantee to a buyer?**

yes

**Please describe your shipping policy and practice.**

I have shipped under certain circumstances, prefer clients to come here for release to new home.

**Do you offer assistance with return, rescue or re-homing of your own cats?**

yes

**Do you have a written application for a potential buyer?**

yes

**Please tell us a little more about your cats or your breeding practices. For example, are you interested in offering breeding/showing mentorship? What colors do you work with? This information will be placed on your breeder profile page.**

I am interested in helping qualified people begin breeding programs. The Devon and Manx are both minority breeds in danger of bottle-necked gene pools. I do mentor others.
